Work Comp Navigator

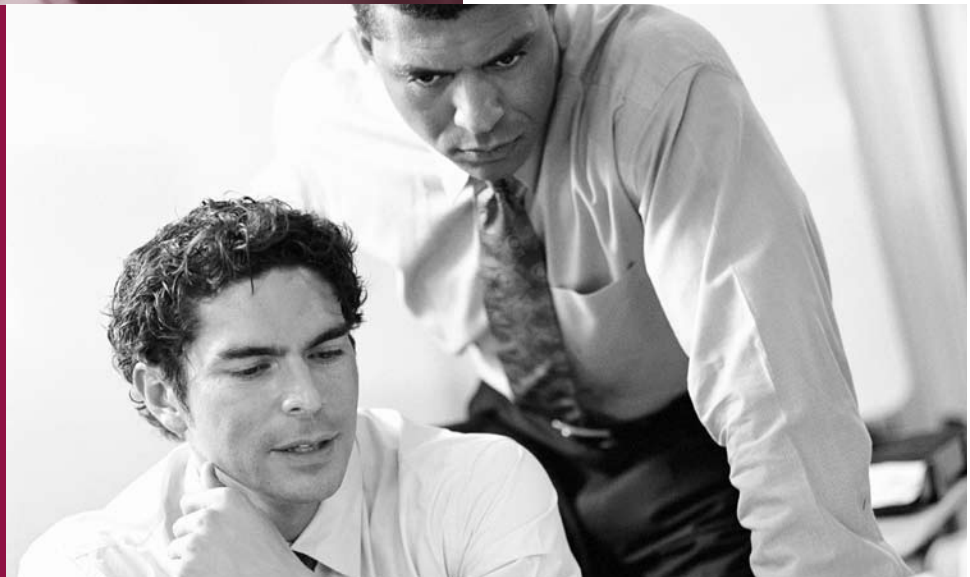

Control Your Workers' Compensation Expenses

Half of all California businesses are routinely overcharged for Work Comp and don't know it. Our Work Comp Navigator program helps reduce expenses by positioning you in a long-term strategy that recognizes the cycle of how Work Comp rates rise and fall. Work with a Van Beurden Certified Work Comp Advisor, and you'll keep on an even keel. You'll reduce Work Comp costs by steering clear of overpayments, costly litigation and uncontrolled medical costs.

You can't control Work Comp rates, but you can control Work Comp costs. When your Work Comp costs are less than what your competition is paying, your business can be successful and more profitable

Employees Can Be Very Well™

Van Beurden's Very Well Health & Wellness program reduces employee benefits and Work Comp expenses through a collaborative approach to promoting wellness in the workplace. Combining employee health assessments, personal one-on-one coaching at the work site and interactive educational tools, Very Well changes employee behaviors and improves overall employee health, contributing to a dramatically better bottom line.

Work with a Certified Work Comp Advisor, and you'll learn to find your way through the increasingly complex Work Comp system while steering away from costly trouble spots. After gaining a thorough understanding of your business' current situation and its unique needs, your Work Comp Advisor will help eliminate any costly mistakes that may exist as part of your current approach.
